Contact physician if irritation persists.

Dispose of container in accordance with local, state and federal regulations.

Net Contents: 2.5 Gallons
Net Contents: 250 / 265 / 275 Gallons
Weight Per Gallon: 10.3 lbs.

GENERAL RECOMMENDATIONS:

PLANT AGRA CALCIUM 3 is designed for use in all liquid fertilizers (except aqua ammonial) and suspensions as a soil application for all crops requiring Calcium 3.

ROW or BAND APPLICATION:

Apply 5-7 pounds (2-3 quarts) PLANT AGRA CALCIUM 3 per acre, just before or at planting time.

BROADCAST APPLICATION:

Apply 10-15 pounds (4-6 quarts) PLANT AGRA CALCIUM 3 per acre just before planting and work into the top 3-5 inches of soil.

NOTE: For foliar application this product may be used at the rate of 2-4 pints per acre with a minimum of 20 gallons of water throughout the growing season. The addition of .5% N as urea of total solution may be added to aid leaf absorption.

Optimum rate of application will vary between fields, depending on soil pH and organic matter content. For best results, follow soil test or plant analysis recommendations.

MIXING INSTRUCTIONS:

PESTICIDES:

Follow this sequence

1. Water;
2. Chelate;
3. Pesticide

Agitate to assure proper mixing,
always jar test with new combinations.

FERTILIZER:

Follow this sequence

1. 1/3 of fertilizer;
2. Chelate;
3. balance of fertilizer;

Agitate to assure proper mix.
